CABLE REELS FOR BATTERY CHARGING ZEUS-RB
No. 223-RB
Useful energy
Depending on the item, the packaging may contain one or more of the following materials - to be recycled according to local municipal or state regulations.

- cardboard
- polyethylene bag
- polystyrene paper
- wood
- nails
- plastic straps
- cellophane
- paper clips
- gummed paper

CABLE REELS FOR BATTERY CHARGING

ZEUS-RB

STRENGTH POINTS

• Cable guide with rollers, horizontal and vertical, on 4 sides, designed to extend average cable life, comes standard on all models.

• IP44 protection degree standard on all models.

• Special electric collector to drastically reduce overheating during operation.

• Thermal protector standard on all models.

• An optional protection degree is available, useful to protect against accidental, uncontrolled rewinding of the cable.

• Repeated spring stress-tests guarantees decades of life and efficiency.

• 1.3 m inlet cable as standard to connect the cable reel for battery charging to the main line.
Cable guide with rollers, horizontal and vertical, on 4 sides, designed to extend average cable life, comes standard on all models.

IP44 protection degree standard on all models.

Special electric collector to drastically reduce overheating during operation.

Thermal protector standard on all models.

An optional protection degree is available, useful to protect against accidental, uncontrolled rewinding of the cable.

Repeated spring stress-tests guarantees decades of life and efficiency.

1.3 m inlet cable as standard to connect the cable reel for battery charging to the main line.

PAWL: Easy to remove for maintenance or when the work requires free sliding.

SIDE CLUTCH: Has special seals that act as bracket clutch.

Rewinding Clutch: Optional: lets you rewind the drum at a safe speed.

Connection Pliers: To connect the cable reel to the vehicle’s battery.

Extension Cable: With 6 red cable for the positive pole and 6 black cable for the negative one previously divided and sheathed.

Spring: Tested to withstand over 20,000 work cycles.

Fixing Bracket: Can be rotated up to 90° per side and has 2 slotted holes for safe, easy installation.

Bayonet Bracket: Lets you quickly move the cable reel around the various workstations.

CABLE REELS FOR BATTERY CHARGING S. 280

The cable reels for battery charging are the ideal solutions designed by RAASM to facilitate the battery charging of the vehicles in the whole garage, in the farthest places from the main recharging device too. Usable as an extension cable with 6 or 9 meters, the cable reel can be used with a maximum charging current of 30 A and it’s equipped with a reset button and a thermic protection against the current overload.

**FIXED AND SWIVELLING**

**COVER COLORS**
- Shockproof plastic
- STANDARD
- RAL 1004

- **Technology**
  The research and development of cutting-edge solutions, carried out entirely in Italy, is the starting point for the entire production cycle.

- **Quality**
  Offering high-quality products is one of our main objectives. Specific and rigorous tests accompany every single stage of the production process.

- **Efficiency**
  RAASM offers a complete range of fluid management solutions suitable for many different sectors of use. Our success is founded on the ability to identify and satisfy the specific needs of our customers.
